which will select Org mode for this buffer no matter what the file's name is. See also the variable org-insert-mode-line-in-empty-file. Many commands in Org work on the region if the region is active. To make use of this, you need to have transient-mark-mode turned on, which is the default. If you do not like transient-mark-mode, you can create an active region by using the mouse to select a ...
